

BLANCO SILGRANIT® GENERAL CARE & CLEANING

Daily cleaning may be done with any non-abrasive cleaner (i.e. Bar Keeper's Friend, Soft Scrub, Soft Scrub with Bleach, or dishwasher soap). After every use, rinse and wipe the sink dry with a clean, soft cloth to eliminate any water spots or soap film build-ups. Please go to www.BLANCOAMERICA.COM or our YouTube channel for care and cleaning instructions.

REMOVING STAINS AND MINOR SCUFF MARKS:

Please use a mild abrasive cleanser, along with a soft scouring pad. For stubborn stains ~ a solution of 50% bleach, 50% water should only be used for tough, stubborn stains. Let the solution sit in the bottom of the sink for one hour; then scrub. Rinse well. Also, the use of BAR KEEPERS FRIEND (directions included on bottle or can) will help remove stubborn stains. (NOTE: Dark colored sinks must be rinsed thoroughly with hot water).

LUSTER: Mineral oil applied with a damp cloth can be used to restore the luster but is typically not necessary.

MISCELLANEOUS:

To remove Calcium Deposits (a white ring around the bottom of your sink): use LIME AWAY or CLR cleaner. To remove Adhesive Labels: use rubbing alcohol. Note: Always test any stain removers in a small, non-visible location

WHAT NOT TO USE:

- 1) Do not use any abrasive cleaning agents or scrub pads, such as Steel Wool
- 2) Straight bleach
- 3) Commercial alkalis, such as ammonia and/or caustic solutions
- 4) Drain blocking chemicals that involve filling the sink with water

5) Do not use the sink for cleaning paint or grout materials

Note: Always test any stain removers in a small, non-visible location
